Redesigning the HRBP Role to Fuel AI Transformation
重新設計 HRBP 角色以推動 AI 轉型

The Future HRBP: AI Transformation Consultant
未來的 HRBP：AI 轉型顧問

The HRBP role is at an inflection point as AI reshapes how HR delivers value to business.

隨著人工智慧重塑人力資源為企業創造價值的方式，HRBP 的角色正處於一個轉捩點。

Only 51% of HR and business leaders today agree that their HRBPs are involved in important strategic discussions. For the rest, HRBPs remain tied to transactional work that AI is already beginning to absorb (e.g., drafting job descriptions, summarizing engagement data, answering policy FAQs). Even the HRBPs seen as "strategic" face the risk of being underleveraged, as AI duplicates tasks they once owned, or their work no longer shapes business outcomes.

目前只有 51%的人力資源與商業領袖同意他們的 HRBP 參與重要的策略討論 。 其餘的 HRBP 仍與 AI 已開始吸收的交易性工作掛鉤（例如擬定職務說明、摘要參與數據、回答政策常見問題）。即使是被視為「策略性」的人力資源業務夥伴（HRBP），也面臨被低估的風險，因為 AI 會重複他們曾經擁有的任務，或他們的工作不再影響業務成果。

CHROs cannot afford to leave the HRBP role unchanged, as it is their most visible, business-facing role. They must redefine it to secure HR's relevance as indispensable strategic partners in an AI-infused enterprise.

CHRO 不能讓 HRBP 的角色不變，因為這是他們最顯眼、最面向業務的角色。他們必須重新定義人力資源，以確保人力資源作為 AI 滲透企業中不可或缺的策略夥伴的相關性。

The HRBP of the future should be strategic talent leaders (STLs) with an expanded remit as "AI transformation consultants."

未來的人力資源業務夥伴應該是策略人才領袖（STLs），並擴大職權為「人工智慧轉型顧問」。

HRBPs as strategic talent leaders are responsible for identifying the most pressing talent opportunities, aligning with business units, and owning the talent agenda for their business unit. With AI, this role expands into directly guiding the people side of AI-driven

transformation, including:

作為策略人才領導者，HRBP 負責識別最迫切的人才機會，與業務單位協調，並掌控其業務單位的人才規劃。有了 AI，這個角色擴展到直接引導 AI 驅動轉型的人員面向，包括：

- Guiding workforce redesign as AI transforms roles (e.g., deciding when to reskill, redeploy or phase out jobs).
  隨著 AI 改變職務（例如決定何時再培訓、重新部署或逐步淘汰工作），引導勞動力重新設計。
- Addressing bias and ethics in AI-enabled people decisions.
  解決 AI 驅動決策中的偏見與倫理問題。
- Shaping human-machine collaboration to ensure productivity gains do not come at the expense of engagement.
  塑造人機協作，確保生產力提升不會以犧牲投入度為代價。

HRBPs already sit closest to business leaders; with AI, their remit extends from translating people strategy to actively guiding AI transformation.

人力資源業務夥伴（HRBP）已經與企業領袖關係最密切;透過 AI，他們的職責從翻譯人員策略到積極引導 AI 轉型。

Shift Tasks to Refocus HRBPs on High-Value Work
調整任務，讓人力資源業務夥伴重新聚焦於高價值工作

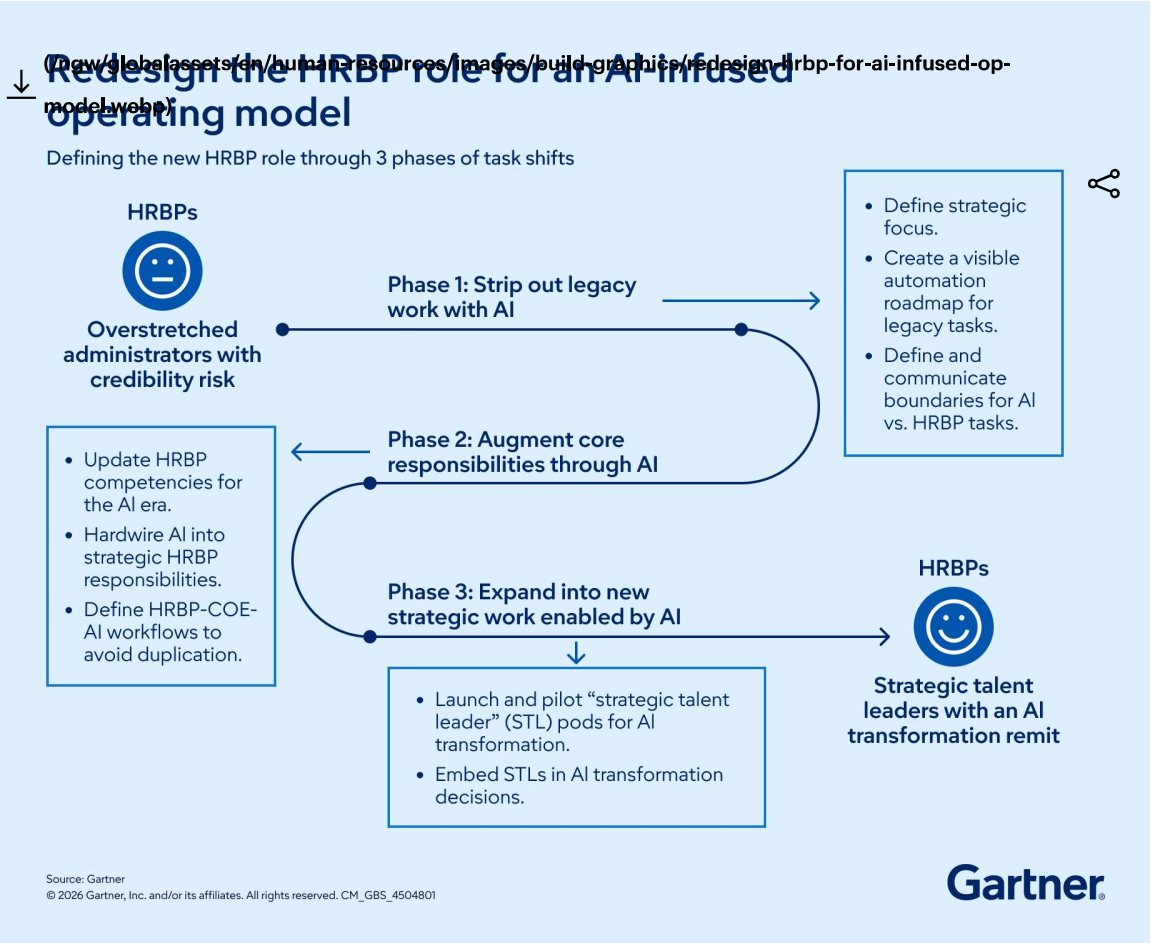
To prepare HRBPs for a shift to higher-value responsibilities, CHROs must make three phases of task shifts:

為了讓人力資源業務夥伴（HRBP）準備轉任更高價值的職責，CHRO 必須完成三個任務轉移階段：

1. Strip out legacy work.
   剔除舊有作品。
2. Augment core strategic responsibilities with AI.
   以人工智慧來強化核心策略責任。
3. Expand into new strategic work.
   擴展到新的策略工作。

While these phases build on each other in logic, CHROs can start at the right entry point depending on the AI maturity and the maturity of their HRBP population.

雖然這些階段在邏輯上相輔相成，但 CHRO 可以根據 AI 成熟度及 HRBP 族群的成熟度，從合適的入門點開始。



Phase 1: Strip Out Legacy Work With AI
第一階段：剔除與 AI 相關的舊有工作

Key Actions 主要行動

- Define strategic focus by clarifying upfront where HRBPs should be spending their time.

  事先明確定義人力資源業務夥伴應該將時間花在哪裡，來定義策略焦點。

- Create a visible automation roadmap for legacy tasks based on automation readiness (today, 12-24 months, retain as human-led).

  根據自動化準備度（目前，12-24個月，保留由人主導）來建立一個可見的自動化路線圖，針對舊有任務。

- Define and communicate boundaries for AI vs. HRBP tasks using a practical mechanism, such as the "stop-doing" list.

  用實用機制（例如「停止行動」清單）來定義並傳達 AI 與 HRBP 任務的界限。

Measurement of Success: 成功的衡量：

Goal: AI removes low-value tasks and HRBP capacity is reinvested in strategic activities.

目標：AI 移除低價值任務，並將人力資源業務夥伴（HRBP）的能力重新投入策略性活動。

Example Metrics: 範例指標：

- Hours reclaimed from specific tasks (e.g., onboarding checklists, reporting requests).
  從特定任務中回收的工時（例如入職檢查清單、回報請求）。
- % of time reallocated to strategic priorities (e.g., workforce planning).
  部分時間重新分配至策略優先事項（例如，勞動力規劃）。

Phase 2: Augment Core Strategic Responsibilities Through AI
第二階段：透過人工智慧強化核心策略責任

Key Actions 主要行動

- Update HRBP competencies to ensure AI-readiness is a visible, measure part of the role in the new AI era.
  更新人力資源業務夥伴（HRBP）能力，確保 AI 準備度成為新 AI 時代角色中可見且衡量的一部分。
- Rewire strategic tasks with AI and use AI-generated inputs as a baseline to enable HRBPs to facilitate conversations and deliver evidence-based, future-ready insights that leaders cannot get elsewhere.
  以 AI 重新規劃策略任務，並以 AI 生成的輸入作為基準，使 HRBP 能促進對話，並提供領導者無法在其他地方獲得的證據基礎、面向未來的洞見。
- Define HRBP-CoE-AI workflows to avoid duplication and ensure CoEs and AI tools focus on surfacing signals that HRBPs can make usable for business leaders.
  定義 HRBP-CoE-AI 工作流程，以避免重複，並確保 CoE 與 AI 工具聚焦於呈現 HRBP 能讓企業領導者可用的訊號。

Measurement of Success: 成功的衡量：

Goal: AI strengthens core HRBP responsibilities and improves BU-level talent outcomes.

目標：AI 強化核心人力資源業務夥伴職責，並提升 BU 層級人才的成果。

Example Metrics: 範例指標：

- Cycle time reduction in workforce/succession decisions.
  減少人力/接班決策的週期時間。
- % increase in successors ready for critical roles within 18 months.
  18個月內準備擔任關鍵職務的繼任者增加百分比。
- Reduction in regrettable attrition for AI-flagged high-risk roles.
  降低 AI 標記的高風險職位令人遺憾的流失率。

Phase 3: Expand Into New Strategic Work Enabled by AI
第三階段：擴展至由 AI 推動的新策略工作

Key Actions 主要行動

- Launch and pilot “strategic talent leader” (STL) pods for AI transformation comprised of HRBPs selected for their ability to use AI insights, exercise judgement and guide leaders through change.

  啟動並試點「策略性人才領袖」（STL）小組，由具備運用 AI 洞察、判斷力及引導領導者面對變革能力的 HRBP 組成。

- Embed STLs in AI transformation decisions to ensure HR’s role in AI transformation is explicit and workforce risks and opportunities are addressed before final decisions are made.

  在 AI 轉型決策中嵌入 STL 條款，確保人力資源在 AI 轉型中的角色明確，並在最終決策前處理員工風險與機會。

Measurement of Success:　成功的衡量：

Goal: STL-led impact on AI transformation decisions at the BU/regional level.

目標：STL 主導的 AI 轉型決策在 BU/區域層級產生影響。

Example Metrics: 範例指標：

- % of roles redesigned for AI with redeployment vs layoffs.

  有職位在重新設計 AI 後有重新部署，而不是裁員。

- # of bias cases in AI-enabled decisions flagged/mitigated.

  # 在 AI 驅動決策中被標記/減輕偏見案件的案例。

- Reduction in time-to-capability for AI-critical roles.

  縮短 AI 關鍵角色的能力實現時間。

Gartner for HR Professionals
Gartner 人力資源專業人士指南

Gartner for HR Professionals (/en/human-resources/products/gartner-for-hr-professionals) helps HR teams become agile, strategic partners by building critical HRBP skills, strengthening strategic judgment, and driving CHRO priorities that deliver real business impact.

Gartner 人力資源專業人士 (/en/human-resources/products/gartner-for-hr-professionals)協助人力資源團隊成為敏捷且具策略性的夥伴，透過培養關鍵的人力資源業務夥伴技能、強化策略判斷力，並推動實現真正業務影響力的 CHRO 優先事項。

“Gartner for HR Professionals accelerated HR’s impact on business results through HRBPs who developed a consistent operating model, resulting in strong partnerships with key business leaders.”
- DIrector, Talent Management

Support for Your HR Business Partner team

1 **Enhance HR expertise** and keep your team abreast of HR trends with cutting edge insights

3 **Identify development opportunities** based on the HR Professionals Competency model and self-diagnostic

2 **Accelerate project execution** using Ignition Guides, project management guides that highlight best practices and pitfalls to avoid

4 **Use data to drive talent decision making** with access to HR metrics in DataHub. HR professionas can compare their organization to peers and identify opportunities to enhance HR function performance

Explore Gartner for HR Professionals (/en/human-resources/products/gartner-for-hr-professio

Leverage Gartner Resources to Achieve Stronger Outcomes

Join the **Lead a Successful HR Transformation webinar (/en/webinar/811831/1815855-to-lead-a-successful-hr-transformation-a-good-process-is-not-enough)** to uncover the real differentiator of successful HR transformations.

Use **CHRO Accelerators (/en/human-resources/research/accelerators-for-chros)** to access clear, concise guidance and resources for executing mission-critical priorities.

Leverage **Gartner BuySmart™ (/en/products/buysmart)** to streamline HR technology buying decisions.

Ready for what's next? We can help.

Access objective insights, exclusive peer networks and expert guidance designed for leaders like you.
